

KELLY SCHUMACHER

SOFTWARE ENGINEER

PROJECTS

Sole Developer | [PodStream App](#)

NOV 2023, BrainStation, GitHub, Spotify Embeds

- Designed and developed a dynamic website integrating social media elements with cutting-edge podcast streaming functionality.
- Enabled listeners to discover, connect, and curate personalized libraries, seamlessly rendering data within React components.
- Implemented Knex.js for database interaction, utilized Express.js for backend API endpoints, and leveraged React.js to create an aesthetically pleasing and dynamic user interface.

Full Stack Developer | [BrainStation Industry Project](#)

NOV 2023, Kaseya, BrainStation, GitHub

- Collaborated with a cross-functional team to address Kaseya's challenge of monitoring employee contributions on version control platforms, focusing on the GitHub API.
- Designed and implemented a dynamic application within a 24-hour timeframe, allowing users to navigate team members and visualize individual contribution data through interactive radar charts.

EXPERIENCE

Bartender | Breakwater Hospitality

JAN 2022 - PRESENT, MIAMI, FL

- Managed challenging customer interactions and equipment issues with effective communication, attention to detail, and problem-solving skills.

Food & Beverage Manager | Seven Springs Mountain Resort

OCT 2019 - APR 2021, CHAMPION, PA

- Adapted to pandemic challenges and efficiently managed frequently changing regulations, supply disruptions, and customer demands, demonstrating resilience and managing shifting priorities and adjusting to emerging trends.
- Achieved a 30% YoY increase in daily revenue through diligent profit and loss management, budget adherence, and strategic planning.

F&B Manager, Corporate Trainer | StoneWerks Big Rock Grille

DEC 2017 - APR 2019, SAN ANTONIO, TX

- Enhanced operational efficiency, product quality, and customer satisfaction through refined training processes.
- Analyzed sales data, customer feedback, and inventory levels to make informed decisions.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript

Web Technologies: Web APIs, HTTPS, JSON, REST APIs, Responsive Web Design, CORS, Heroku, Netlify

Frameworks: React.js, Express.js

Databases: MySQL, Firebase

Tools: JIRA, Node.js, Knex.js

Point of Sale Systems: Yelp SeatMe Software, Cake POS, Square POS

PROFILE

Eager to blend my creative and analytical mindset in software engineering, I am passionate about continuous learning, personal growth, and the ever-evolving field of technology. With a background in education and a decade in hospitality management, I offer a unique skill set for the dynamic and client-focused software field, combining educational insight, management experience, and a genuine passion for the advancement of technology. Active participant in many tech-related workshops and meetups, to showcase my commitment to staying up to date on the latest trends in Artificial Intelligence, Machine Learning, web applications and development and cloud computing.

EDUCATION

BrainStation

Software Engineering

SEPT 2023 - DEC 2023

MIAMI, FL

Catawba College

Bachelor of Arts, Education

AUG 2011 - MAY 2015

SALISBURY, NC

- West Teaching Scholar
